Together these documents will replace the Stafford Borough Local Plan 2001 and all its policies, to provide the framework for planning and development management until 2031.</u></p> <p>1.3 <u>The purpose of the Local Plan is to set out a vision for the development of the borough, objectives to guide growth, and policies to make sure that new development meets local needs in line with national policy. The Local Plan is supported by a range of other planning policy documents, such as Supplementary Planning Documents, the Statement of Community Involvement and Annual Monitoring Reports. For more information about these documents please visit the Forward Plans section of the Council website at: www.staffordbc.gov.uk/forwardplans</u></p> <p><u>Sustainability Appraisal</u></p> <p>1.4 <u>The Council is required to ensure that planning policy documents are subject to a Sustainability Appraisal, which incorporates the requirements of Strategic Environmental Assessment. The purpose of a Sustainability Appraisal is to help establish the best approach to development amongst all reasonable alternatives. Appraising the social, environmental and economic effects of all potential strategies and policies in the new Local Plan will ensure that decisions are made that accord with the principles of sustainable development, as defined in the National Planning Policy Framework.</u></p> <p>1.5 <u>A Sustainability Appraisal framework was prepared in 2007, which identified relevant sustainability objectives for the Borough and facilitated an assessment during the preparation of the Plan for Stafford Borough, through a series of Sustainability Appraisal reports. The Sustainability Appraisal has therefore informed the spatial strategy, vision, objectives and policies of the Plan for Stafford Borough. 			<p><u>Preparation of the Plan</u></p> <p>1.6 <u>Between 2008 and 2012 Stafford Borough Council carried out a series of consultation and information gathering exercises, to prepare a vision, establish key issues and objectives, consider strategic options for Stafford Borough and alternative development strategies together with key policies, through the following documents:</u></p> <ul style="list-style-type: none"> • <u>January & February 2008 - The Plan for Stafford Borough: Borough wide Development Strategy</u> • <u>June & July 2008 - Principles for Settlement Development</u> • <u>February & March 2009 - Delivering the Plan for Stafford Borough: Issues & Options</u> • <u>February & March 2010 - Delivering the Plan for Stafford Borough: Draft Core Policies</u> • <u>November 2010 to January 2011 - Delivering the Plan for Stafford Borough: Local Choices</u> • <u>September & October 2011 - The Plan for Stafford Borough: Draft Publication</u> • <u>May to July 2012 – The Plan for Stafford Borough: Strategic Policy Choices</u> <p>1.7 <u>The ‘Borough-wide Development Strategy’ identified six alternative development strategy options for Stafford Borough ranging from all development focused on Stafford town to widespread dispersal across many settlements. The result of the Sustainability Appraisal and the key recommendation from the consultation was for new development to be focused on Stafford, Stone and one or more of the principal settlements.</u></p> <p>1.8 <u>The subsequent ‘Principles for Settlement Development’ document established three key categories of settlements across the Borough, showing how each category could experience different levels of growth that would be appropriate for the particular settlements across the Borough. The general principle of setting out a hierarchy for different levels of development for particular settlements was generally supported.</u></p>

			<p>1.9 <u>The 'Delivering the Plan for Stafford Borough - Issues and Options' consultation included a spatial vision and key objectives, development principles and a range of development location options around Stafford, Stone and key settlements previously categorised in the Principles for Settlement Development. The document set out two growth scenarios. The reason for identifying two scenarios was that, at the time, the Regional Spatial Strategy was being considered through an Examination and there was the possibility that a higher target for housing would be outlined for Stafford Borough. The accompanying Sustainability Appraisal assessed draft plan objectives along with site location options, highlighted the sustainability issues with each location and set out policy recommendations.</u></p> <p>1.10 <u>The 'Delivering the Plan for Stafford Borough: Draft Core Policies' set out core planning policy areas and draft policy wording related to sustainable development and climate change, environmental protection, housing, economy, historic environment, design, open space, sport, recreation and transport.</u></p> <p>1.11 <u>In May 2010, the Government signalled its intention to abolish the West Midlands Regional Spatial Strategy, including the Borough-specific development requirements for the period 2006 to 2026. As a result of this significant policy change, the Borough Council consulted upon 'Delivering the Plan for Stafford Borough: Local Choices' at the end of 2010 setting out the authority's approach for the development strategy, new housing, employment and retail provision as well as preferred employment locations at Stafford town, in light of the Localism Bill.</u></p> <p>1.12 <u>In September & October 2011 'The Plan for Stafford Borough: Draft Publication' sought views on the development strategy locations for strategic growth and revised core policy wording. Many development management policies, which will be used alongside core policies to assess future planning applications, were also set out.</u></p> <p>1.13 <u>In March 2012 the National Planning Policy Framework was published, which provided the opportunity to establish the key messages through the 'Plan for Stafford Borough: Strategic Policy Choices' document, which was consulted upon during May to July 2012.</u></p>

			<p><u>approach to the future spatial planning of Stafford Borough. This has one specific practical consequence, which relates to cross-referencing between policies and proposals. Where they are particularly important, key cross-references are identified within some policies. However, in general, not all linked policies are stated. Identifying all linked policies is not practically possible, because it is difficult to determine in advance which policies might be relevant. In addition, including detailed cross-references would not result in a concise and readable document. When considering any particular aspect of the Plan for Stafford Borough, it may also be necessary to consider the rest of the document. All policies apply wherever relevant, and whether or not a specific cross-reference has been made. This principle will apply to the Plan for Stafford Borough as a whole. All the relevant documents will need to be read together when considering a specific development proposal or issue.</u></p> <p><u>Further Information</u></p> <p><u>1.18 For further information on the Plan for Stafford Borough, the Local Plan or any other planning policy enquiries, please contact the Forward Planning team using the details below:</u></p> <p><u>Forward Planning team</u> <u>Stafford Borough Council</u> <u>Civic Centre</u> <u>Riverside</u> <u>STAFFORD</u> <u>ST16 3AQ</u> <u>Telephone: 01785 619000</u> <u>Fax: 01785 619473</u> <u>E-mail: forwardplanning@staffordbc.gov.uk</u></p> <p><u>All documents are available on the Borough Council's website at www.staffordbc.gov.uk/forwardplans. AM28	Para 6.10	24	<p>Amend the wording to provide up-to-date housing completions and commitments as at 31 March 2013, as set out below:</p> <p>'Stafford Borough had 306 425-housing completions in 2012/13-2011/2012, and as of 31st March 2013 2012-has given planning permission for 2,781 2,914-new houses to be built, which are yet to be completed. providing 6 years' supply based on 500 new homes per year. Furthermore evidence from the Strategic Housing Land Availability Assessment identifies a considerable additional supply of sites, which suggests that the availability of suitable sites will not be a constraint to whatever overall scale of housing is proposed.'</p>																														
AM29	Para 6.11	24	<p>Amend the wording from the fourth sentence to the end of the paragraph, to provide up-to-date household projection figures, as set out below:</p>																														

Plan for Stafford Borough Final Schedule of Additional Modifications

Modification Number	Policy / paragraph	Page Number (in Publication version)	Proposed change
			<p>'The latest 2008 household projections to 2033 showed an increase of 11,523 households, from 52,999 to 64,522 households who will be looking for houses in our area. This is an average of approximately 461 500 new houses per year over the period 2008 to 2033. However the 2011 interim household projections covering the period 2011 to 2021 identify an increase from 55,706 in 2011 to 59,874 in 2021, which is an average of approximately 417 new houses per year.'</p>
AM30	Para 6.12	24	<p>Amend wording of the second sentence to read as follows:</p> <p>Recently the The Government, through the NPPF, has stated that local authorities should provide for the locally assessed requirements of their area. Pressures for continued in-migration are likely to remain from neighbouring areas in the short to medium term. In light of meeting objectively assessed needs it is sensible to plan for these, not least because it is consistent with the growth aspirations for Stafford town, and its developing sub-regional role, as set out in the Spatial Vision and Key Objectives earlier. This approach has also been supported by neighbouring local authorities through recent Duty to Co-operate cross-border meetings on the Plan for Stafford Borough: Strategic Policy Choices document.'</p>
AM31	Para 6.13	25	<p>Amend wording of the first sentence to read as follows:</p> <p>'With regard to new housing requirements for military personnel, a separate provision for up to 400 350 Service Family Accommodation properties will be delivered as part of the new Local Plan in order to facilitate military personnel returning from abroad.'</p>

AM48	Para 7.21	44	<p>Delete the existing paragraph and replace with the following new paragraph as set out below:</p> <p>A key consideration in terms of new housing development in Stafford is alleviation of foul water flows through the current sewerage system, which reaches capacity during storm events due to the combination of foul water and surface water run off within the existing system. Severn Trent Water has concerns about new development impacting on the Lammascote pumping station, which is currently operating close to capacity. The issue is particularly evident between the main sewerage pumping station at Lammascote and the Branscote sewage treatment works east of Stafford, which are connected with a rising main pipe. To solve this issue, Severn Trent Water advise that prior to major residential development north of Stafford it will be necessary to increase the storage capacity within the sewerage system. This significant infrastructure provision will be delivered using new over-sized pipes and new storage of foul water at specific locations within the network.</p> <p><u>'A key consideration in terms of new housing development in Stafford is the provision of additional foul sewerage capacity to accommodate new development flows. Large parts of the Stafford sewerage system were originally designed to accept both foul and storm water in the same pipe, and during heavy rainfall the capacity in parts of the sewerage system can be exceeded resulting in localised sewer flooding. To ensure the additional development flows do not increase flood risk, it is envisaged that some localised sewer capacity improvements will be required to provide additional capacity to coincide with development construction. In addition to localised capacity improvements, further strategic capacity improvements will be required at Lammascote sewage pumping station, which pumps the majority of sewage flows from the north, west and city centre direct to Brancote sewage treatment works. Severn Trent have advised that whilst there is some limited capacity at Lammascote there will need to be more extensive sewerage capacity improvements to accommodate medium to long term development. More detailed hydraulic sewer modelling is currently ongoing to identify the scope of sewerage improvement work to meet the new housing development being allocated across Stafford.'</u></p>
